- 🏠 Ha Noi

SKILLS

HTML

Javascript/Typescript

Reactjs/Nextjs

Mongodb

Tailwindcss

CSS

OBJECTIVE

Short-Term Goal: "As a recent graduate, my short-term goal is to secure a software developer position where I can apply my programming skills in a collaborative environment, gain hands-on experience, and contribute to meaningful projects that enhance user experience."

Long-Term Goal:
"In the long term, I aim to evolve into a senior software developer role, where I can lead projects, mentor junior developers, and drive innovative solutions. I aspire to deepen my expertise in emerging technologies and contribute to the strategic direction of software development within the organization."

EDUCATION

🎓 **University of Transport and Communications | 2018 - 2024**

Automotive Engineering

WORK EXPERIENCE

💼   **| 2024 - 2024**
Sole Developer

Project Title: ChatMind Duration: September 24, 2024 October 28, 2024
Role: Sole Developer

Description:
Developed ChatMind, an AI-powered chat application, using a modern tech stack that includes Next.js, React.js, Tailwind CSS, MongoDB, ClearK, Stripe, and Google Gemini API. The application features an intuitive user interface that allows users to engage in dynamic conversations with AI. Implemented secure payment processing with Stripe and optimized user experience through responsive design.

Key Responsibilities:

Designed and developed the frontend using Next.js and React.js.
Styled the application with Tailwind CSS for a sleek and responsive layout.
Integrated MongoDB for efficient data storage and retrieval.
Utilized Google Gemini API to enhance the AI conversational capabilities.
Implemented payment functionality with Stripe for user subscriptions.
Deployed the application to provide accessible and real-time chat experiences.
Technologies Used:
Next.js, React.js, Tailwind CSS, MongoDB, ClearK, Stripe, Google Gemini API
